OK. I'll make that happen ASAP.

I'll wait until the back records are on it before I pick it up.

Gerry, your USB drive, containing the discovery described in the attached letter, is ready for pickup at our front desk. Or I can drop it at your office in the morning if you prefer.

If you want to leave the drive with us for a day or two, to see whether we can add the bank records before you pick it up, feel free. But I'm far from certain that all of the bank records will fit on that size drive.

Thanks

Alan M. Buie
